A happy marriage life is considered by looking at the 7th ruler in the natal chart and than looking at that planet in the D9 chart. For example, if the 7th house falls into the sign of Libra in the birthchart, than its ruling planet is Venus. Than you have to check the placements and aspects of Venus in the D9 chart.
Venus is the main significator for marriage in the D9 chart anyway, so if she is debilitated or afflicted by NN or Saturn, it could bring difficulties in marriage life.
If 2 or more malefic planets affect Venus in the D9 chart, we can consider marriage to be delayed. If NN afflicts Venus in the D9 chart, cheating could take place in marriage life.
Saturn afflicting Venus brings misery and suffering into marriage life. If Mercury is conjunct Venus in the D9 chart, than marriage life is not blessed.
