Remedy of Jupiter (Bad Husband) Astrology

Jupiter is the husband in women's chart. As Jupiter is the planet of luck, wisdom, higher knowledge of life, teachings, children, and wealth. A women is mostly looking for these things from a husband as well.

A woman wants someone's guidance, happiness, children, support, and wealth in her life. These all things are presented or provided by the planet Jupiter. Therefore when we look for all these things we check condition of the Jupiter. A woman is weak physically if compared with man, she always want support. This support can be provided by Jupiter. If Jupiter dignity is good in woman's birth chart there is chances she may get good husband, but if Jupiter dignity is bad there is chances of she may get bad husband in her life. Bad husband or Jupiter simply means the man not providing any emotional support, abuse her verbally or physically and not present when a woman needs him emotionally. But there is always some remedies if we apply in our life we can avoid many unpleasant things in our life.

Remedy of Bad Husband/Jupiter:

If some women have bad Jupiter they can work on it and can live happily. First of all a woman should understand what is the planet Jupiter all about. When she understands what is Jupiter and what is the role of Jupiter in life she can relate better and work on it. Jupiter is planet of ***wisdom, higher learning, creativity and spirituality and much more.***

The women need to cultivate spirituality in her behavior or in her life. She needs to cultivate the spirituality in marriage. Spirituality in marriage means woman happiness is not dependent on the husband for happiness but she should be happiness in every relation. She need to learn happiness exist within not outside then a woman attracts a virtuous man in her life. There is no need to please her husband by doing superficial things. Jupiter is the planet of wisdom and spirituality. The woman needs to cultivate all these things in her personality then she may attract a good husband because we always attract what we are not what we want. She needs to if a woman feel depressed in love life and feel empty in her life she needs to work on her hurtful feelings rather than developing some kind of bad habit. A woman needs to take care for herself, she needs to cultivate creative aspect of life and try to find happiness within herself. When we are depressed we try to find happiness in others and running here and there. We try to console our mind by eating excessive food because food also can give temporary happiness, but by doing all these things we simply messing more of our life. By doing all these things we are attract unworthy man in life. So women need to cultivate inner joy, wisdom and spirituality in her life so that she can attract good husband.

Praying Lord Shiva is very beneficial in getting good husband, because lord shiva work through Jupiter, if woman pray to lord Shiva then then she is able to cultivate spiritual marriage, inner joy and wisdom. A woman can worship any spiritual deity in which she believed in her culture.

Life is a mystery, sometimes women suffer a lot due to bad husband in her life, even she think I did not do anything in her life why this happened to me. In astrology life is through karma of many past lives which we don't remember. **There is law of karma we get what we sow.** so one should be careful and mindful about their behavior, unless we don't do good we cannot get good. We should look at the bigger picture of life in which we all are one. We belong to one source with different name, we should try to connect with divine source, and unless we don't develop divinity in our attitude we can't get good in our life. **When a woman suffers from husband she should try to develop Jupiter quality within herself so that she can get good husband in her life.**

Timing/Transits of Finding Love and Relationship in Astrology

Have you been waiting for love, relationship or Marriage partner? You are just waiting, waiting and waiting. There are some people who want to know about their timing of meeting the right person or when they will have a significant event occur in their life. In astrology there is time for every event to unfold. Timing in astrology means your planetary position alignment in such a way that there is chances of that, you May meet your boyfriend (lover) or would be life partner (husband).

There are mainly two main planets of relationship and these are **Jupiter and Venus**. Venus rules romantic relationships and Venus is a planet that helps to bring two people together into relationships. Venus also represent wife in man chart and Jupiter represent husband in woman chart. There are houses in astrology which represents love and relationship in the birth chart. 7th house represents physical union with someone. 9th house represent long term committed relationships like Marriage, and 1st house (ascendant) represents body of the individual.

Whenever the Venus is going to cross/transit the 1st house or ascendant, the ascendant represents the body in the individual of the person who wants the relationship. When Venus transit in 1st house or ascendant it bring love and relationship. This can be a very basic transit for love and relationships. As Venus is natural indicator for love and relationships. If Venus transit the rulers of the 7th, and 9th or it transit in the 7th and 9th house could also bring love and relationship. Seventh house represents connecting with others in a physical bonding and 9th house represents long term relationship. Whenever Jupiter and the lord of 7th house transits the first or ninth house this is more indicative of things like Marriage commitment, deeper and strong relationships. And if Venus or Jupiter itself rule these houses then it is a double significant of relationships.

Relationship is different for everybody because everyone has a different ascendant. If someone have Sun rule 7th the house and Saturn rule the 9th house. Whenever these planets cross the ascendant, this could also bring together to the person's partner. For Cancer or Leo ascendant people the seventh house Lord is Saturn. Saturn takes two and half years to get the result so that means that for Cancer and Leo ascendant; relationships are more long-term because Saturn is slow moving planet. By looking at the seventh and ninth house Lord will give you some ideas about whether you going to get good one or.....not.

In Vedic astrology there is divisional chart of every aspect of life. 7th and 9th divisional charts are for relationship and Marriage divisional charts. We can also check these timing in divisional charts also. Although it bit complicated but they work if the timing of birth is correct. If the Mercury is the 1st and Sun is the 7th house ruler that means is that both Mercury and Sun are also primary indicators of relationship.

Transits for love and relationship are complicated. Planets interaction by transits play very important role in giving type of relationship. For example when you have Venus coming together with Sun in transit, what it does mean? It could be overwhelming, confusing and

mind boggling. And if Venus comes together with Mars in transit it could be very passionate or physical relationship etc.

If you start to map out these indications, it take some time to trace the transits as they moved and see when the bunch up (conjunction) together. You can judge that what type or important time for love and relationships coming in your life.

DIVORCE IN ASTROLOGY

DIVORCE or BREAKUP IN ASTROLOGY

After article of marriage many queries came for divorce such as divorce in astrology, astrology divorce indicators, divorce in astrology charts, 8th house for marriage or divorce, signs of divorce in astrology, indicators of divorce in astrology, divorce in horoscope, divorce yog in horoscope, divorce and remarriage yog in horoscope, reasons for divorce in astrology, chances of divorce in astrology, I think everyone wants my article on Divorce. Everyone wants happy peaceful married life, But it not happens with everyone. सबको जन्नत जहाँ नहीं मलिता !!!!

Reason Of Divorce:

Reason of divorce generally astrologer try to find in 7th house and related planet which I will explain below.7th house is the prime significator of this but it is not only the exact root cause. Now read carefully, our overall nature, character and good or bad thing need to see from 1st house mean ascendant. What I found from my research, reason of divorce because mismatch of two body, it may qualification, background, character, beauty, views and most important "nature" etc…. So every time we need to check ascendant and strength of ascendant. If this matching than problem always manageable with support of some others factors in Horoscope.

7th house: 7th house represents marriage house. Any affliction to 7th house gives struggle in marriage life and sometimes divorce in particular conditions such as placement of 7th house in 6th house. But we cannot say on behalf of 7th house only. Divorce depends on many factors such as planets & some other combination.

8th and 12th house: These two house also equally important for divorce. Bad 8th house gives many issues with external parties like in-laws, distance relationship after marriage etc.... Now 12th house, this house gives & knows for bed pleasure. If this house is not balance, then those couples will not satisfy each-other demands.

Role of Ketu, Saturn, Rahu & Mars in Divorce:

If there is Saturn/Rahu/Mars, especially Ketu in the 7th house, then marriage is either delayed or struggle in marriage, but do not go on this factor only, sometimes

benefic Jupiter and Venus acts as a safeguard. Those people who have this combination should marry after the age of 28 years.

Ketu : Ketu is the planet of spirituality and moksha and when it placed on kaam house 7th house ,It will not give good results. If it is well placed by sign, aspected by benefic and strong D-9 also, then we can expect marriage will survive.

Rahu : Bad Rahu have only one problem in 7th/8th house. It gives interest in many women and these type people run for beauty.

Saturn: Saturn in 7th house (Digbali) get extra power, it may give the differences in the couple. Saturn comes again on same sign where it placed in your Horoscope after 28.5 years; you have to wait for Saturn to complete a full cycle. Early marriages will slowly decay and fail. I have seen this in many cases.

Mars : Planet of energy, argues and heat in nature. If this planet placed in 7th/8th house then cause of delay and divorce in marriage, except if it placed with Jupiter or in sign of Jupiter or very strong Venus in the chart.

Sun : King of all planet, so administration, ego pride will be there in the nature. In some charts this may cause of divorce.

Venus: Always remember, Venus is the most important planet for marriage and married life happiness. Without Average Venus, in some phase of life we will realize lack of happiness in family. If debilitated Venus in 7/8 and 4th house chances of divorce more. Retrograde Venus in the chart or during marriage time sometimes bad for couple.

Match-making In Astrology: One more point I want to tell you, there is something called Horoscope Match-making. Match-making simply known as gun-Milan. There is total 36 gun if you get more than 18 then you are eligible for marriage. No Never, Astrologer doing wrong practice here. This is not solid reason of any divorce.
