Directional Chart:

Combination of Planets...

There are 70 combinations of planets according to degrees and we will study them order wise, order is important as it will come handy later.

We are taking 5° and 10° as a tentative degree to denote smaller and higher degree of planets.

If we take jeev karak(living character) of one planet , we will have to take ajeev karak(non-living character) of other planet.

1. Sun + Moon

5° 10°
